Thank you for the honor of serving as your Commissioner. Record numbers of people continue to want to live, work, obtain their education and raise families in Wood County. While there is no question our state economy has had an adverse impact on us, we continue to work aggressively to deliver new and diverse jobs to our county, positioning us at the forefront of an economic turnaround.

We are working with CSX on the construction of an \$80 million dollar intermodal facility, near North Baltimore, with the promise of many new jobs. The Commissioners assisted First Solar with its \$135 Million dollar expansion, positioning Wood County as the green energy leader of northwest Ohio. These industries are vital components of OUR future and represent job creation efforts for the entire county. With your help I can continue to lead the effort for a better tomorrow. You deserve nothing less than a **full time** and **experienced** effort on your behalf. I need your help and I hope you will join the Team on September 2nd.
